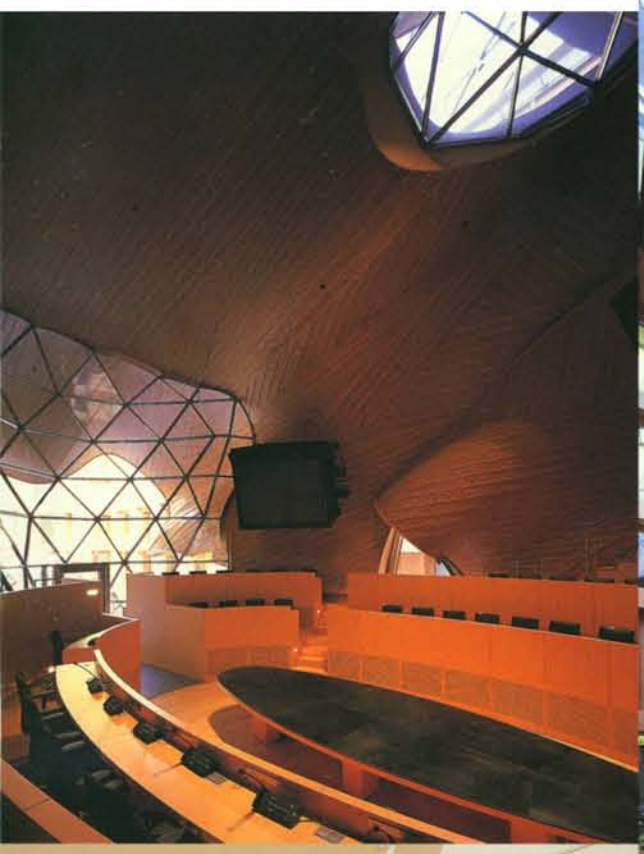
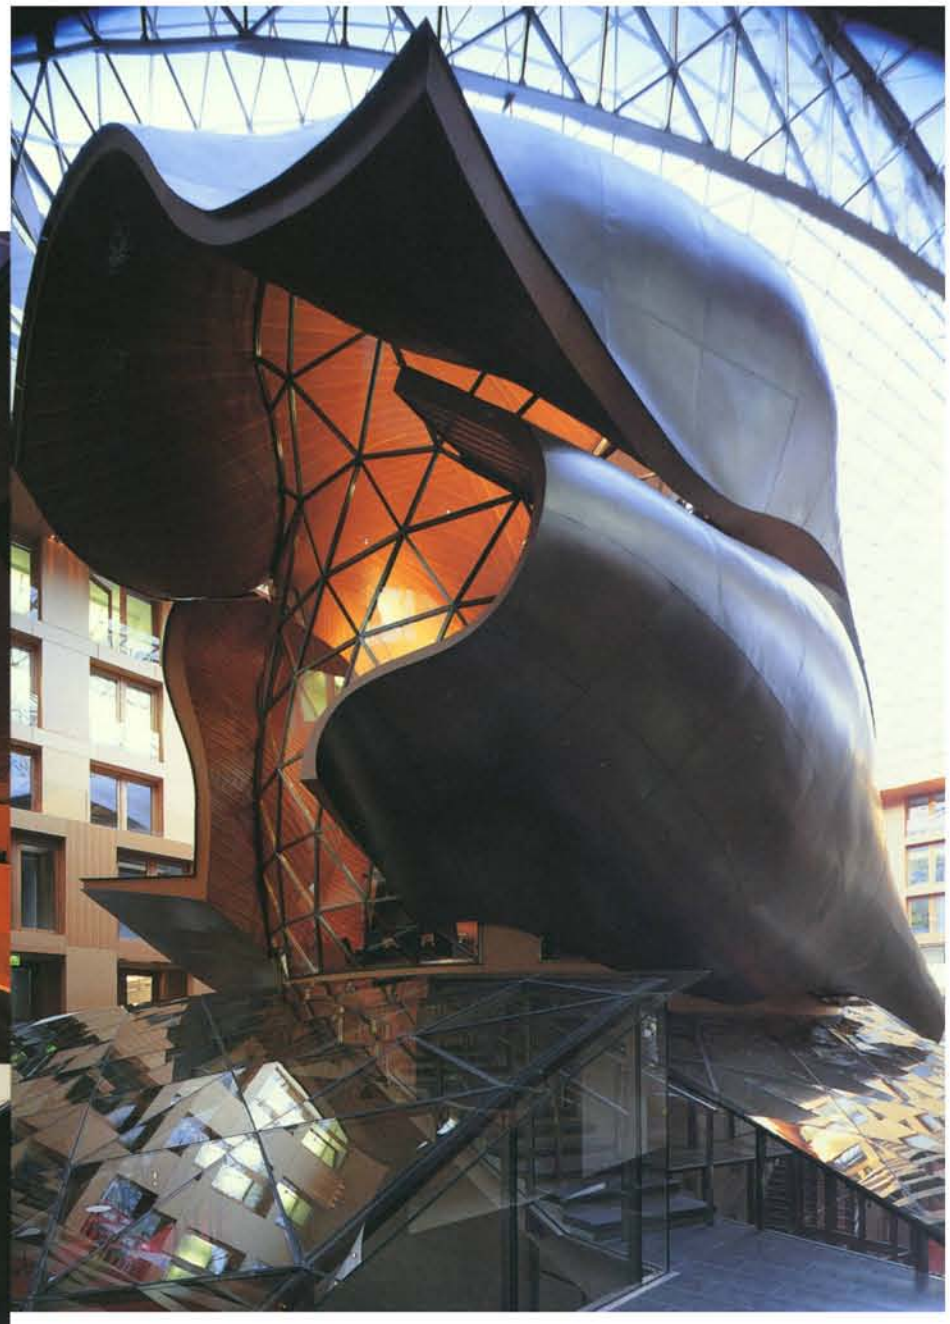
quets and assemblies.





Un segundo atrio interior, más pequeño, da servicio al cuerpo residencial del proyecto. Este atrio permite la entrada de luz natural por ambos lados de cada vivienda. Un estanque situado en la parte baja del atrio añade a la luz una cualidad dinámica que puede apreciarse desde los ascensores de vidrio que dan servicio a la zona residencial. Las viviendas se plantean de diversos tamaños: desde estudios hasta los áticos que ocupan las dos últimas plantas.

A second, smaller interior atrium serves the residential component of the project. This atrium allows natural light to enter both sides of each apartment. A reflecting pool at the bottom of the atrium adds a dynamic quality to the light, best seen from the glass elevators that service the residential area. The apartments vary in size, from studios to maisonettes occupying the top two floors.

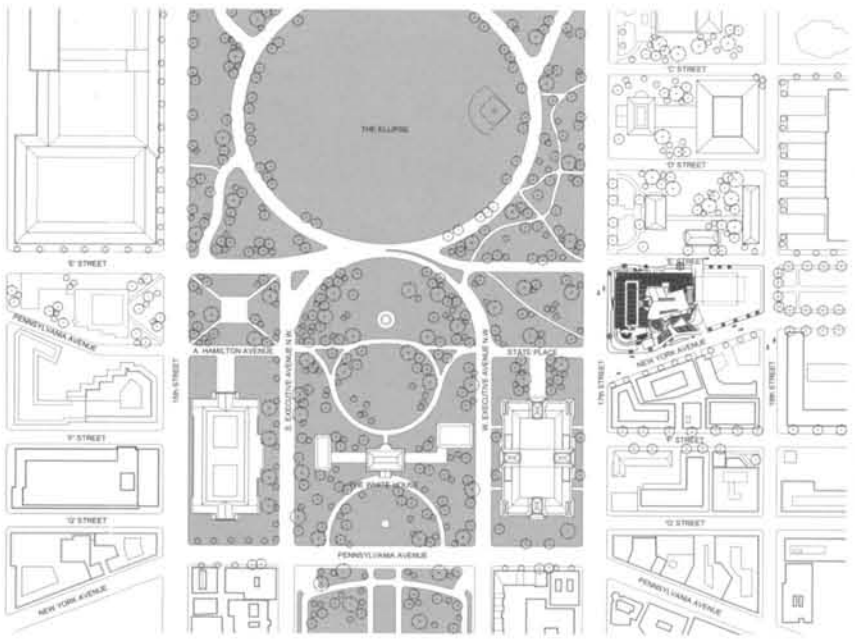
GALERÍA DE ARTE CORCORAN

1999- CORCORAN GALLERY OF ART



Plano general de situación / Overall site plan

Maqueta del concurso / Competition model

La Galería de Arte Corcoran está situada en la ciudad de Washington D.C., en la confluencia de la calle 17 Noroeste y la avenida de Nueva York, colindante con la Casa Blanca y el Bulevar Nacional. Fundada en 1869, la galería Corcoran es el museo de arte más antiguo de Washington y su única Facultad de arte y diseño. Las dependencias actuales de la galería Corcoran incluyen un edificio proyectado por Ernest Flagg e inaugurado en 1897, así como una ampliación diseñada por Charles Pratt e inaugurada en 1928. Tanto el edificio original como la ampliación contienen actualmente dos plantas de galerías, las oficinas administrativas y los servicios de apoyo, así como dependencias para la facultad de arte y diseño. Los planes originales de construcción para las dependencias existentes nunca se realizaron en su totalidad, y debido a que estas dependencias no pueden dar cabida a la cada vez mayor colección permanente de la galería Corcoran y al reciente incremento en la matriculación de estudiantes, se convocó un concurso internacional y se encargó el proyecto de una nueva ampliación definitiva.

The Corcoran Gallery of Art is located in Washington D.C., on 17th Street NW at New York Avenue, adjacent to the White House and the National Mall. Founded in 1869, the Corcoran Gallery of Art is Washington's oldest art museum and its only college of art and design. The Corcoran's current facilities include a building designed by Ernest Flagg and opened in 1897, as well as an addition designed by Charles Platt and opened in 1928. Both the original building and the addition currently contain two floors of galleries, administrative offices and support facilities, as well as facilities for the college of art and design. The original building plans for the existing facilities were never fully realized, and because the existing facilities cannot accommodate the Corcoran's growing permanent collection or its recent increase in student enrollment, an international design competition was held and the design of a new and final addition was commissioned.

alessandra latour

louis i. kahn

escritos
conferencias
y entrevistas

El Croquis Editorial

Como arquitecto, y más importante aún, como profesor, Louis I. Kahn ejerció una influencia trascendente en e
desarrollo de la arquitectura moderna. Este libro recoge de forma conjunta, y por primera vez en castellano, los
ensayos, entrevistas y reflexiones de Kahn desde 1931 hasta 1974.

Los ensayos, muchos de los cuales son clásicos de la literatura arquitectónica, como 'Order Is', 'Form and Being'
'Poetics', y 'Silence and Light', manifiestan la profunda y espiritual creencia de Kahn en la arquitectura, y su idea
de la misión y el trabajo de los arquitectos. Esta recopilación, seleccionada de publicaciones como *Perspecta*
Progressive Architecture, Arts and Architecture, AIA Journal, y House and Garden, interesará a todo aquél admi
rador de la obra de Kahn.

BIBLIOTECA DE ARQUITECTURA

1 Adolf Loos **Escritos I** 1897-1909
2 Adolf Loos **Escritos II** 1910-1933
3 Otto Wagner **La arquitectura de nuestro tiempo**
4 Ozenfant/Le Corbusier **Acerca del purismo**
5 Fritz Neumeyer-Mies van der Rohe **La palabra sin artificio**
6 Bruno Taut **Escritos expresionistas**
7 Frank Lloyd Wright **Autobiografía** 1867 [1944]
8 Alvar Aalto **De palabra y por escrito**
9 Luis Barragán **Escritos y Conversaciones**
10 Erik Gunnar Asplund **Escritos. Cuaderno de Viajes**
11 Louis I. Kahn **Escritos, Conferencias y Entrevistas**

Esta colección se propone ofrecer al público aquellos textos que han supuesto los estímulos teóricos, los momentos de reflexión o las recapitulaciones biográficas de los protagonistas de la arquitectura moderna. Cada libro está al cuidado de un especialista en el autor, y garantiza traducciones rigurosas y completas, siempre a partir de las ediciones originales.
